

AMIAS FOOD

Effective heatsink

has thermally optimised design which supports natural flow of the air.

Easily customisable height

is provided by practical automatic grippers which allow for adjustments with respect to the needs and requirements of the space, displayed goods and/or customer.

Surfaced

Recessed

Quick and effortless Installation

is ensured by push-in connectors and integrated strain-relief, which is placed in the closing cover of the driver. The luminaires are also available for through-wiring.

Thermally protected driver

reacts to overheating first by regulating its output and if the overheating lasts, it turns off automatically, so that there is no damage caused to the driver.

Color stability

is provided by a chip with **3-4 SDCM**, which means there is no chance to spot any possible change in quality of the light colour with the human eye.
